PROFILE

Hi, I'm Shahzaib, a proactive software engineering student with hands-on experience in web development, mobile app development, AI chatbots, and data entry. Proficient in C++, Java, Python, HTML, CSS, and JS, I enjoy building user-friendly interfaces and custom solutions. I've also developed a strong interest in digital marketing and data entry, both of which sharpen my attention to detail and organization. I aim to create efficient and visually appealing digital experiences. Always eager for opportunities/internship to grow my skills, collaborate with others, and deliver value through clean, thoughtful work. Let's build something meaningful!
